

PAR FIT TOOL KIT

Software Overview and
Installation Guide

ENGINEERING YOUR SUCCESS.

AN INTRODUCTION TO THE PAR FIT TOOL KIT

Parker's Hydraulic Filter Division Europe is pleased to present the Par Fit Tool Kit – a new, specially developed software package comprising three individual part identification programmes.

Allowing easy identification of replacement part numbers for a wide range of vehicles and applications, automatic data updates and an ability to enquire about specific part numbers the Par Fit Tool Kit is Parker innovation at its best.

PAR-FIT™ INTERCHANGE ELEMENT SELECTOR

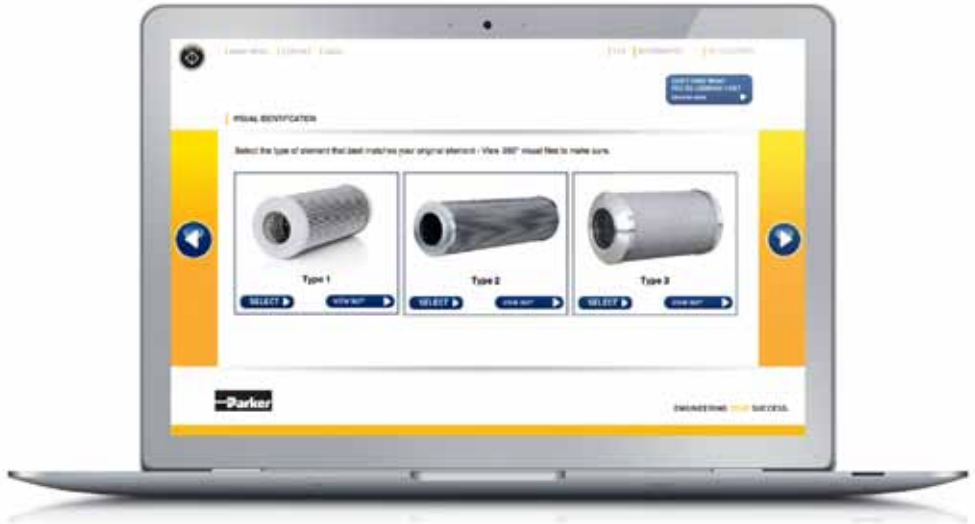

If you know the manufacturer part number then use our reliable Element Selector to identify the correct corresponding Par Fit part number.

PAR FIT™ ELEMENT EXPERT

Do you have the original element but need to source the correct replacement?
Three simple steps to identifying the correct Par Fit replacement element.

The Hydraulic Filter

OEMAPPS

THE INTERACTIVE APPLICATION DATA SOLUTION

Find the correct Par Fit part number by vehicle type or make or model.
Plus so much more information.

HOW TO INSTALL THE PAR FIT TOOL KIT

Click the link to begin the installation process

Par Fit Tool Kit is an Adobe Air programme, which means this programme must be installed on your PC to use the tools.

If your PC does not already have Adobe Air installed then the Par Fit Tool Kit installation file will automatically install this at the same time.

The Par Fit Tool Kit is available for download at www.parkerhfde.com/toolkit

Registration

Complete the simple registration form to continue the installation process.

If you are a Parker employee (and use a parker.com email address to register) your registration will be automatically approved and your activation code will be sent to your email address.

If you are not a Parker employee then your registration will need to be approved by a member of our support team – once approved you should receive your activation code by email within 24 hours.

3 Activation Code

Once you have received your activation code via email simply re-open the Par Fit Tool Kit programme (using the shortcut on your desktop) and enter the activation code where requested. Then click 'Activate' to begin the full installation.

4 Full Installation

The initial installation of the Par Fit Tool Kit requires an internet connection and may take up to 10 minutes to install all files and data – the length of time required to install the programme will be dependent on the speed of your internet connection.

5 You have lift off!

Once the installation is complete the Par Fit Tool Kit will open automatically. You can now use the three individual programmes to identify the correct replacement element.

Need help? - If you are having problems with installation or registration of the Par Fit Tool Kit please speak to your IT department in the first instance as installation permissions may be required.

If you are still experiencing issues please email parfitinfo@parker.com and we will respond as quickly as possible.
